

Adalanté Frequently Asked Questions: Wedding Cakes

Is there a cost difference to have different flavors for each cake tier?

- We would charge extra depending upon flavor combination of cakes and fillings.

Is a slice of the wedding cake and groom's cake served to each guest?

- The cake size will be based on the number of guests to be served.
- Guests that prefer a slice of each will be accommodated unless more people attend than were expected.

Will Adalanté set up and decorate the cake and cake table inclusive of linens? Is there a charge for this?

- If we are doing all of the catering for the event, the cake table and cake will be set up as part of the event inclusive of linens.
- If we are only providing the cakes, a 15% delivery and set-up fee will be added. This does not include rental of cake stands, linens, and set-up of the cake table itself.

Will a box be provided for any leftover cake?

- We provide a box for the top tier to be taken home intact whether or not we do the entire event.
- We provide all to-go packaging for the cake if we are doing the entire event.

What is Adalanté's policy about the tier plates and other cake parts?

- If you would like to keep the tier plates and columns, you will be charged accordingly.
- If you would like to have silver cake bases or items such as fountains, those will be charged at a small rental fee.

Will the wedding cake alone be sufficient as a dessert?

- Yes.

In order to remain within budget, can Adalanté prepare a beautiful small cake, and have a less decorated cake to serve guests?

- Yes, we will work with you to stay within your budget.
